

Our Week In Reception

Friday 10th January 2020

HAPPY NEW YEAR!

N E W H A L L

What have we been learning?

What a very eggsciting week we have had! The children found eggs in the garden and have been busy caring for them, building nests, observing and waiting eagerly for them to hatch. We have had many varied and interesting ideas as to what may be in the egg from penguins, aliens, cats and reindeer. Our writing this week has been for the children to write their thoughts on what is in the egg. On Friday the egg was gone! We saw a video of a dinosaur walking through our class and must have taken her egg back. Next week we will be learning about different dinosaurs and their features.

In maths this week, we have been measuring and ordering items by weight. We have been using language such as heavy, heavier and heaviest, light, lighter, lightest. Please can you practise using this language at home as well.

We have been loving the new climbing addition in the EYFS outdoor area.

Home learning task:

We are looking at healthy eating next week and talking about healthy and unhealthy foods. Please can you make a food diary with meals, snacks and drinks over the weekend. Please fill this out with your children and send it back to school. We will be using these to discuss different food groups during the week.

Just a few reminders...

- Cherry class will now be changing their library books on a Tuesday. Please ensure your child's book is in their bag. Willow will continue to change their library books on Monday.
- If your child has brought a purple word book home, they will be changed on Monday during phonics. Please make sure they return this on Monday so they can bring a new book home.
- Please encourage your child to walk their bike/ scooter to the gate before they start riding it at the end of the day. There are a lot of people around and small children can easily be knocked over. Thank you
