

# Our Week In Year One

Friday 16h October 2020

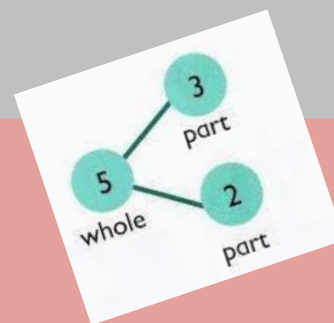

**N E W H A L L**

## What have we been learning?

- In maths we have started to learn about number bonds and have explored fact families for the numbers 5,6,7,8,9 and 10. Children have deepened their knowledge by representing this with a Part Whole model. See if the children can recall any number facts to 10!
- We have continued to learn all about our senses in science this week we explored sound and touch. The children had great fun playing sound bingo.
- In topic the children have been learning about significant monarchs, hopefully your children can tell you who their queen is and any interesting facts about a few famous Monarchs!

Next **Thursday (October 22nd)**, we are planning a castle themed day for the children. The children are welcome to come to school in **castle or royal family themed costumes**. They children will also be participating in a castle banquet so please do let us know about any additional allergies that we are not aware of.

- Daily phonics and reading.
- Mathseed lesson 21– counting back from 10.
- Look Cover Write Check

Have fun learning at home!

Children could have go at playing sound bingo at home. Get them to close their eyes and describe what they hear or you could play snippets of their favourite song or tv show for them to guess.

## Just a few reminders...

- Children have new bookmarks in their bookbags with key questions on them for you to ask when they are reading. This will support discussion around a book as well as supporting comprehension.
- There are a few library books that have not been returned this term, please double check at home and bring in on your next changeover day to avoid costs. **Year One** change their books on a **Friday**.
- Please can we ask that children do not wear tights of PE days (Monday/Tuesday) as this is proving tricky for them when changing.

Thank you—Mrs Wood and Mrs Mouncey-Jaggers
