

NEWHALL

What have we been learning?

- The children have had great fun for Children in Need today and have made a collage Pudsey mask, designed pyjamas and played slumber party games! Thank you for your donations.
- This week in maths we have begun to look at subtraction and using different strategies such as crossing off as well as using concrete resources to tell subtraction stories.
- In DT we have begun investigating suitable materials for making an umbrella. We tested different materials to see whether they were waterproof or not.
- In Science the children are looking at the characteristics of different seasons and have started to look at weather patterns.
- In RE we acted out the story of 'The Lost Sheep'.
- In PE we practised our jumping and ways of travelling.

Home Learning

- Daily reading and phonics.
- Weekly 'Look, Cover, Write and Check' spellings.
- Mathseed lesson 47– Subtracting (Accessible Friday 13th– Friday 20th November)

Just a few reminders...

- Thank you for your patience with regards to children having access to school library books. **Beech Class will be changing their library day to a Wednesday** and **Rowan will stay the same on a Friday**. Could we kindly remind parents that all reading books need to be returned every **Friday for Rowan** and **Wednesday for Beech** for the children to take new ones home. Could we also continue to appeal to a 'book hunt' at home and that any school reading books be returned and placed in the reception area as well.
- We have a lost property box of unnamed clothing items in the main reception area. Please feel free to come and have a look to see if anything belongs to your child.
- Have a lovely weekend!

Thank you—Year One team
