

NEWHALL

What have we been learning?

- In RE the children have celebrated Guru Nanak's birthday, made a birthday card and enjoyed listening to some stories.
- In Maths this week we are learning about subtraction and using a number line.
- In PE the children have been travelling in different ways such as; tiptoeing, leaping, hopping, skipping and jumping.

- Our *Whirling Weather* topic is going well! This week we have made wind indicators and tested them on a windy day! The children were able to tell us whether the wind was strong or weak and how they knew.

Learning at home

- Daily reading and phonics.
- Mathseeds lesson 53– Subtraction 2.
- Weekly 'Look, Cover, Write and Check' spellings.

To support our *Whirling Weather* topic in geography, you could make a weather diary at home or even just discuss what weather you observe on your journey to school.

Just a few reminders...

- Earrings must be taken out for PE days as we are unable to take them out for the children (Monday and Tuesday).
- Beech class' library day has CHANGED to Wednesday.
- Rowan class' library day is Friday.
- The lost property bucket is located in the reception area. It will be there for one more week and then we will donate any spare clothing after that.

Have a nice weekend!

Thank you—Mrs Wood and Mrs Mouncey-Jaggers
