

# Our Week In Year Two

Friday 18th September 2020

## NEWHALL

We are so pleased to see the children settle back into school life and embracing their new routines. We are so proud of all their achievements already... Keep it up Year Two!

In English this week we have introduced the children to discrete English lessons, moving them on from their previous Read, Write Inc lessons. This week they have started their new class book, which will be the basis of our English lessons this half term. The children have also had their first week of Reciprocal Reading, in which they focus on a particular reading skill. Next week we will be moving the children forward by beginning to teach this as a carousel activity.

In Maths we have been concentrating on securing the children's understanding of number to ensure that any gaps are covered.

In PSHE next week, we plan to teach the children the scientific names for parts of the human body. This will be taught from a scientific point of view and in line with curriculum guidelines. If you wish to discuss this do not hesitate to talk with Mrs. Agleby or Miss. Wiggins.

### Home learning task

We hope that your Home Learning projects are going well, and we look forward to seeing some pictures of the children's achievements soon.

**Great news...** We are now able to send both library and reading books home along with the children's Homework books. Please ensure that the books are kept in a safe place with as limited contact as possible from people other than parents and the children.

Maths Home Learning will again be done via Mathseed. Please let us know if you have any problems logging in.

### Just a few reminders...

- Please double check all your child's belongings are named including their coats.
- Please make sure children's long hair is tied back and ensure no nail varnish is worn to school.
- As always please can you continue to make sure your child brings in a named water bottle each day.
