

NEWHALL

What have we been learning?

- This week the children have focused on what they are grateful for at this time of year. They then wrote their ideas down and we created a class paper chain! This continued in our PSHE lesson where we thought about who we are thankful to.
- In maths the children have started to read, write and match numbers to 20.
- In geography the children are creating visual diagrams to show the difference in weather in the United Kingdom.
- We enjoyed going on a winter walk around the school in science and observed the changes of season that we noticed.
- We have come to the end of our DT unit on 'Splish, Splash' and the children loved working as a team to make an umbrella that would keep Chase the teddy dry! This week we tested how successful they were.
- The children absolutely loved their Christmas dinner too!

Home Learning

- Daily reading and phonics.
- Mathseed lesson 48—numbers and words
- Weekly 'Look, Cover, Write and Check'.

Just a few reminders...

- Panto day— **15th December. The children are invited to dress up as any character from the film 'Cinderella' ie a prince/princess or even a cat or mouse**
- **Thursday 17th December**— children are to bring in **slippers or winter socks** (if they have them) for when we watch the Polar Express. We will supply some popcorn for the children to enjoy with their film.
- Remember to return the Mathseeds form if you are having technical issues.
- Have a lovely weekend!

Thank you—Year One team
