

# Our Week In Reception

Friday 26th November 2021

N E W H A L L

This week we read a story about an Astronaut called Bob who works on the moon. Bobs job is very important; he cleans up the rubbish, gives tours to tourists and turns on the 'moonlight' at night. We wrote postcards to the man on the moon to ask him questions about his job. The children asked Bob things like 'Where do you sleep on the moon?' and 'How do you drink with a helmet on?'. We introduced question marks into our writing as a different type of punctuation.

We focussed on spacesuits this week and learnt all about what they are made from and how astronauts put them on. We watched some amazing videos about how astronauts practise working in space by wearing their spacesuits in swimming pools to get used to the feeling of less gravity.

We have continued learning about the number 5 and the children have been showing us their number bonds by making fact families to 5.

Have a wonderful weekend.

The Reception Team— Miss Gooch, Miss Maddams, Mrs Matthews and Ms Watson.

## Home learning task.

Next week is our last week learning about Space. Talk to your children about what they have learnt about space. How many planets are there? What planet do we live on? What is the light that shines on the moon? What do astronauts wear? Why do astronauts look like they are floating in space? What are the 'holes' on the moon and how are they made?

## Just a few reminders...

- Please remember to complete their phonics homework every day. It should take no longer than 5 minutes. It reinforces their learning at school and support from home consolidates their knowledge and recall.
- Please could bring your child's outfit for the nativity in a named bag by the 3rd December for our dress rehearsal.
